

BE A WELL-ROUNDED PROBLEM SOLVER!

★ THINKING & STEM ★ CAMP

An Amazing Camp

For 5 – 8 Years Old

Survive in the Wilderness

Evolving Architecture, Evolving Home

Dream of Automation since Stone Age

Discover Creativity in Mathematics

Creative Business Problem Solving

Chain Reaction - Activate, Crack or Stop it!

INNOKID

Creative & Critical Thinking and Science Exploration

- Creative Problem Solving
- Creative Imagination
- Creative Knowledge Application

Check out Demo Lessons from:

Unlock your child's potential with Innokid - where creativity and learning collide!

Science Exploration and Creative Thinking Camp

Unlock your child's curiosity at the Science Exploration and Creative Thinking Camp! This unique experience combines hands-on science exploration with activities designed to boost creative thinking and communication skills. It's a fun, enriching journey where young minds can explore, invent, and thrive.

AN ADVENTURE IN A SAFARI PARK

Children embark on a virtual journey to a safari, experiencing the power of creativity of nature and human beings.

CAN WE FLY WITHOUT WINGS?

Explore how humans have attempted to fly.
Project: Create flying models!

CAST ON THE GROUND OR ON THE WALL?

Explore the evolution of timekeeping, from the sundial to modern innovations. **Project: Create a unique clock model for forest animals.**

HOW TO CREATE STORIES thru STORY BOARDING

EXPLORING LINKS between SCIENCE AND INNOVATION

Uncover how scientific discoveries spark pivotal innovations that shape our world.

FUN WITH MOTION AND MOTION PATHS

Explore motion and how various living and non-living things move through fun, hands-on activities.

Unlock your child's potential with **Innokid** - where creativity and learning collide!

From Story Listeners

to Story Creators!

Imagination Station: Creative Storymakers Camp

Children love listening to stories — but have you ever imagined the day when your children could create their own? At this camp, children will go from being avid tale listeners to innovative story creators.

This is about developing the ability to think creatively and craft original stories that capture their imagination. Through fun and engaging activities, we inspire young minds to explore the boundless possibilities of their creativity.

Learn to Create and Present Your Own Superhero Story

Illustrating Imagination

Creative Literature

Characters and Places

Dream Up Stories: Characters With Hopes

Superhero Creation 1, 2, 3!

Combination Thinking in Crafting Stories

Substitute Thinking in Crafting Stories

Unlock your child's potential with [Innokid](#) - where creativity and learning collide!

YOUNG BIO EXPLORERS CAMP

Join us for a camp filled with exploration, discovery, and creative thinking! Children will become **nature detectives**, learn about **the wonders of bionics**, and discover **fascinating patterns in nature and technology** - all while using their imaginations to solve problems and think like Young Bio Engineers!

Garden Secrets

Discovering Patterns In Nature and Technology

Identifying Similarities Between Natural & Social Networks

The Nature Detective

Bionics - From Nature To Engineering

How To Design A Creative Animal Behavior Experiment?

Survive Instinctively

Survive Wisely!

THE ART OF INVENTION

CAMP

From spark to creation, discover how ideas ignite, evolve, and shine as inventions. Your child deserves the chance to experience the beauty and power of the art of invention.

1 Mobile Intelligence

2 Creative Inventions

3 The Science and Application of Geometry

4 Marvels of Floatation and Magnetism

5 Mind Flipping in Innovation

6 Exploring Science & Technology using Metaphorical Thinking

7 Thinking like a Creative Engineer

8 Making Things Shine!

Unlock your child's potential with **Innokid** - where creativity and learning collide!

Innokid In Action!

Learn, Think, Speak, Act and Explore
across a diverse range of exciting subjects.

Discover the "Evolution of Architecture".

Discover the remarkable functions of an elephant's trunk.

Explore how to craft an automatic hunting device using simple technology.

Science Experiment:
How do you make an egg float?

Hands-on Activity:
Experience the magic of creating a sundial for animal characters!

Hands-on Activity :
Discovering Robotic Arms Where Science Meets Fun!
